Office Action Summary

Application No. 10/760,493	Applicant(s) BACHMANN ET AL.	
Examiner Traviss C. McIntosh	Art Unit 1623	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Group II in the reply filed on 2/21/2007 is acknowledged.

Additionally, applicants were correct in stating that claim 19 should have been included with claims 20-27 in both Groups V and VI of the restriction.

Claims 8-13 and 16-33 are pending. Claims 11-13 and 19-33 are withdrawn as being drawn to non-elected subject matter.

An action on the merits of claims 8-10 and 16-18 is contained herein below.

Claim Objections

Claim 10 is objected to because of the following informalities: the claim fails to end in a period. Additionally, the claim should also include the word "and" between the last two compounds listed, as proper Markush language is: "selected from the group consisting of X, Y, **and Z**". Appropriate correction is required.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 8-10 and 16-18 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. These compounds are naturally occurring compounds

Art Unit: 1623

produced by *Streptomyces* and the claims do not particularly point out any non-naturally occurring differences between the claimed products and the naturally occurring products. In the absence of the hand of man, the naturally occurring products are considered non-statutory subject matter. The claims should be amended to indicate the hand of the inventor, e.g., by insertion of the term “isolated” as taught on page 83 of the specification (paragraph [177]).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 16-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The term, “therapeutically effective amount” is indefinite where the claim fails to state the function which is to be rendered effective. See *In re Frederiksen*, 102 USPQ 35 (CCPA 1954).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 16-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Miyamura et al. (US 3,890,199).

Art Unit: 1623

Miyamura et al. disclose extracts from *Streptomyces aizunensis* which were grown aerobically in a growth medium (see column 4, line 57 – column 5, line 36). It is noted that the extracts of the prior art are seen to be compositions comprising the naturally occurring products of the instant invention, as both compositions comprise extracts from *Streptomyces aizunensis*.
